Hope everyone survived the **recent hail storm** ok- we had hail damage on our vehicles and I have noticed some homes have had hail damage on their roofs. You might want to **have your insurance company come out and inspect your roof**, especially if you did not replace your roof from the April 2007 storm. We used Quality Tops Roofing and were very pleased with the results- we bought the 30yr roof- only \$500 more than the 20 yr roof (2007 prices).

I recommend getting a **minimum of 3 quotes from roofing companies**- get it in writing! Color must be **weathered wood**- no exceptions.
